CONCURRENT EVENTS IN 2020!

Following the success in 2018, MARGMA is now working together again with MRPMA and PRIM to organise the following concurrent events:

- 10th International Rubber Glove Conference & Exhibition 2020 (10th IRGCE 2020)
- 2nd International Rubber Industry Conference & Exhibition 2020 (2nd IRICE 2020)
- PRIM Diamond Jubilee International Rubber Conference 2020 (PDJIRC 2020)

10TH IRGCE 2020

Successfully organised by the Malaysian Rubber Glove Manufacturers Association (MARGMA) since 2002, the International Rubber Glove Conference & Exhibition (IRGCE) is held once every two years in Malaysia. It is the **MUST VISIT** event for the medical care, oral dental, food handling, laboratories, industrial handling and other industry users of rubber gloves. As hygiene and safety become more important in our daily lives, the IRGCE is poised to be the focal point for everything and anything related to rubber gloves.

2ND IRICE 2020

The Malaysian Rubber Products Manufacturers Association (MRPMA) organised the inaugural International Rubber Industry Conference and Exhibition (IRICE) in May 2017. The main objective of IRICE is to unite major industry players in stimulating change for a better future in the Rubber Industry. The conference covers various topics such as R&D developments, rubber economy, price trend, sustainable operations, trade and investment, and sharing of experiences among the delegates.

PDJIRC 2020

The Plastics & Rubber Institute Malaysia (PRIM) has come a long way since its formation 60 years ago as a chapter of the former Institute of Rubber Industry, United Kingdom.

With the success in organising the IRC 2018, PRIM takes pride in organising the PRIM Diamond Jubilee International Rubber Conference 2020. The PDJIRC 2020 will provide an excellent platform for rubber scientist, technologists, academicians and industrialists to share knowledge and coupled with interaction and networking at various social events throughout.
